+92 312 2174023 vaniahashmi12@gmail.com linkedin.com/in/waniya-hashmi-3b1214245
Karachi, Pakistan

SUMMARY

Business Analyst and Full-Stack Developer with hands-on experience in requirement gathering, process analysis, and end-to-end delivery of 20+ projects. Skilled at leading stakeholder discussions, documenting workflows, and turning business needs into clear specifications and working solutions. Bridges coordinators and development teams through high-fidelity prototyping and clear documentation

EXPERIENCE

Senior Research Associate (Web Developer)

Aga Khan University

12/2024 - Present Karachi

- Facilitated communication between stakeholders and technical teams to ensure requirement accuracy
- Created high-fidelity interactive mockups in Canva to align stakeholder vision before development began
- Implemented technical roadmaps and managed sprint planning in Trello, ensuring on-time delivery of high-priority projects
- Led full-stack development for 20+ projects, delivering significant improvements in system performance and UI/UX fidelity

Freelancer – Digital Content Manager

Self-employed

10/2023 - 10/2024

- Communicated directly with clients to understand content goals and audience, and delivered work to their brief
- Wrote blogs, created and edited content, and managed social media accounts
- Optimized content for SEO and analyzed metrics to report on engagement and visibility

Frontend Web Developer (Internship)

Lucky One Mall

08/2022 - 09/2022 Karachi

- Designed and built the company website as a frontend developer using HTML and CSS
- Translated layout and design ideas into clean, structured, and visually consistent web pages
